To complement Manfrotto ONE, Manfrotto introduces **two innovative tools built for professional content creators**. Whether you're filming, shooting, or streaming, these new products are designed to simplify your setup and take your content to the next level.

Manfrotto 500X Fluid Head

The Manfrotto 500X Fluid Head offers precision, versatility, and reliability in a lightweight and robust body. It delivers smooth, fluid motion for confident, creative control. With the innovative **ONE XCHANGE flat base system**, a **tilting sliding plate for portrait or landscape** aspects, and **support for rigs up to 5kg**, it's a perfect fit for mirrorless camera setups.

Manfrotto XCHANGE

Quickly swap heads, sliders and other accessories with the unique XCHANGE Quick Release system, letting you adapt your tripod to any creative challenge. **Shift from photography to video to change shooting styles effortlessly**, or even use as a lighting stand, opening the door to a wide variety of possibilities. With this level of flexibility, Manfrotto ONE becomes a true partner in unlocking your full creative potential.

Q90 Mechanism

Switch seamlessly from vertical to horizontal shooting with the 90° rotating column. Ideal for overhead flat-lay photography or zenithal video shots.

XTEND Mechanism

Set up Manfrotto ONE in seconds with the XTEND locking mechanism, which deploys all leg sections simultaneously.

Sliding Column

Effortlessly adjust the column height with a smooth sliding mechanism, locking it securely in place for precise setups every time.

The new all-in-ONE tripod **combines key features from photo and video tripods into one seamless system**, designed for quick setup, smooth adjustments, and creative flexibility.

Easy Link

Attach essential gear including lights, microphones, or monitor directly to your tripod, optimizing your workflow for both photography and video. A handle dedicated to the Easy Link connector will be available soon.

Levelling Column

Achieve precise levelling in seconds with this intuitive feature. Save time both on set and in postproduction: it lets you focus on creating, not fixing.

Modular Column

Easily detach the lower part of the column to achieve ground-level shots for unique perspectives.

Modular Feet

Manfrotto ONE adapts to any terrain with modular feet: you can easily remove the bottom part to reveal the spiked feet to gain maximum grip. Whether you're shooting on rugged outdoor landscapes, smooth studio floors, or uneven urban surfaces, you can trust your setup to stay stable.
